Tryp Hotels

(City / 3 and 4 stars)

A briefcase full of work, a taxi, another meeting.... and at last a well deserved rest. Or a romantic weekend break in a big city. Or a few days holiday with the family in an interesting urban destination. All these options are available at Tryp hotels, a brand created to offer comfortable and functional facilities in great locations and with impeccable service. They are excellent, modern city hotels and provide unbeatable value for money.

These different travel options, however, are not all expected to stay in the same room. Tryp provides a wide choice of accommodation to satisfy the needs and preferences of all of our guests.

The **Premium Room** is designed for business travellers who need to use the Internet or would like to make themselves a coffee while they read the newspaper on their comfortable Premium Bed, specially developed by Flex. In other words, it is designed for people looking for more than just a room in which to bed down after a hard day's work.

Tryp has also developed the **Fitness Room** in collaboration with Lifefitness designed for guests who want to use any free time they have to keep in shape during their trips way from home. These rooms are equipped with exercise machines, either a treadmill, elliptical cycle or exercise bike, plus a free Fitness Kit.

Tryp hotels make it easy to travel with the family thanks to their **Family Room**; rooms with bunk beds for the kids and a double bed for the parents, so that everyone can rest comfortably after exploring the city together. The rooms provide everything you might need for the youngsters, such as Baby Kits, bottle warmer and gifts for the children.

Tryp hotels also offer business travellers spacious meeting rooms and all of the technological equipment they require to ensure the success of any type of business event.

Hoteles en la Ciudad

The guests at Tryp can also keep fit in our **Mini-Gyms**, spaces dedicated to physical wellbeing and exercise in pleasant surroundings.

And to start the day in the best possible way, guests can enjoy a **Tryp Breakfast**, a varied and delicious breakfast buffet that provides the energy and balance required for the long day of work or sightseeing or any other activity ahead, with special emphasis on healthy, fresh ingredients.

The Tryp brand currently provides 100 hotels in nine countries in Europe and Latin and South America:

- Spain
- Germany
- Brazil
- France
- Argentina
- Cuba
- Portugal
- Uruguay
- Italy
